

2014 Yaris

Where will the 2014 Yaris take you today?

It's not just about the amount of fun you'll have sitting behind the wheel, or the attention you'll get while cruising the city streets – it's also about the journey.

With its small turning radius and incredible handling, even the smallest spaces seem huge. Speaking of huge, Yaris has enough interior space for friends, cargo and anything else you need to take with you. And with incredible fuel efficiency, you can get where you're going without making as many pit stops at the pumps.

When it comes to dependability, Yaris doesn't fall short. It not only comes standard with Toyota's Star Safety System™, it's also backed by the fact that 80% of Toyotas sold in Canada in the last 20 years are still on the road today.*

With so many possibilities and so many ways to have fun, the 2014 Yaris is the perfect vehicle for getting out and making some memories – today.

Smooth sailing... well, driving.

Make any trip the best trip ever.

With Yaris, standing out in a crowd comes naturally. From its sporty exterior to its sleek interior – it's one vehicle that'll get you noticed. Whether you're running errands or just taking a trip to the park,

its manoeuvrability makes driving down any city street fun and easy. And with its eye-catching profile and edgy styling – it'll turn a head or two along the way.

Friends or cargo?

How about both?

The next time you've got a friend moving, expect to be the first in line to help out. With its versatile rear cargo space, Yaris makes loading anything easy – which is good when you're

driving across the city. Speaking of the city, with all the leg and head room Yaris has to offer, you and up to 4 passengers can enjoy it all – from downtown to uptown.

286 litres

Drop the available 60/40 split fold-down rear seat and open up a surprisingly spacious cargo area.

VERSATILITY

When you're packing for a road trip, it always helps to have some extra storage. With spacious door pockets, a large centre console compartment and plenty of rear storage space, Yaris fully adapts to your needs.

Keep the drive fun.

Even on a long road trip.

Yaris CE shown in
Classic Silver Metallic.

When it comes to a long drive, the last thing you want to hear is “are we there yet”. With Yaris, keeping the drive fun and exciting for everyone just comes naturally. From its comfortable interior all the way to its ability to play your favourite tunes directly from your Bluetooth^{®3} compatible cellphone – you and your passengers will always have a great time, even on a long trip.

STYLISH INTERIOR

Yaris offers a world of unexpected interior refinements, from its textured trim to the swoop of the instrument panel, Yaris looks and feels like no other vehicle in its class.

AUDIO

The standard audio system offers four speakers (six speakers on the SE), Bluetooth^{®3} capability, an audio auxiliary input jack and a USB port. Optional LE air conditioning shown.

SHIFT LEVER

Yaris SE is available with an automatic transmission featuring a sporty leather shift knob.

MULTI-INFORMATION DISPLAY

Get important trip data like average fuel consumption, outside temperature and more, all at your fingertips.

Did somebody say safety?

Because with Yaris, it's all around you.

Whether you're driving in the city or on the highway, being confident behind the wheel is always important. Yaris doesn't just deliver outstanding crash safety performance – it also comes with advanced safety features. So while you're cruising the streets with friends or heading out of town with family, you can always feel good about the drive.

1. DRIVER AND FRONT PASSENGER AIRBAGS¹
In the event of certain types of front-impact collisions, these airbags provide protection to the driver and the front passenger.

2. DRIVER'S KNEE AIRBAG¹
In certain types of front-impact collisions, the driver's knee airbag can help provide protection to the area of the driver's knees.

3. FRONT AND REAR SIDE CURTAIN AIRBAGS¹
In certain types of side-impact collisions, these airbags help provide protection for the outboard occupants of the vehicle.

4. DRIVER AND FRONT PASSENGER SEAT-MOUNTED SIDE AIRBAGS¹
In the event of certain types of side-impact collisions, the driver and front passenger seat-mounted airbags are designed to help protect the driver and front passenger-side areas.

5. DRIVER AND FRONT PASSENGER SEAT CUSHION AIRBAGS¹
Located within the front seats, these airbags help provide additional protection in the event of some front-impact collisions.

6. DRIVER AND FRONT PASSENGER WHIPLASH-INJURY-LESSENING (WIL) SEATS
The front seats feature a Whiplash-Injury-Lessening (WIL) design to help reduce the risk of neck injuries. In certain rear-end collisions, WIL seatback frames are engineered to yield in a controlled fashion and help minimize the motion differential between the occupant's head and torso.

7. LATCH
LATCH (Lower Anchors and Tethers for Children) provides an added measure of safety for the smaller members of your family. LATCH includes lower anchors on the outboard rear seats and tether anchors on all rear seats.

2014 Yaris comes standard with the Star Safety System™. This integration of active safety features is designed to protect occupants by helping drivers avoid accidents in the first place.

- VSC** **VEHICLE STABILITY CONTROL**
Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.⁴
- TRAC** **TRACTION CONTROL**
Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).
- ABS** **ANTI-LOCK BRAKE SYSTEM**
Prevents brakes from locking up by “pulsing” brake pressure to each wheel to help you stay in control in emergency braking situations.
- EBD** **ELECTRONIC BRAKE-FORCE DISTRIBUTION**
Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.
- BA** **BRAKE ASSIST**
Detects sudden or “panic” braking and adds the full pressure needed to help prevent a collision.⁵
- SST** **SMART STOP TECHNOLOGY**
Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.⁶

Toyota was the first full-line manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. Visit toyota.ca for more details.

(1) All Toyota vehicles shown in this brochure, have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer.

(2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

(3) Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth technology are available with bilingual compatibility. Please see your Toyota Dealer for details.

(4) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details.

(5) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

(6) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details.

Committed to Canadians, today and tomorrow.

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country fund non-profit programs that work to make a difference for Canadians through direct community involvement.

As part of our ongoing commitment to the environment and education, we established the Toyota Evergreen Learning Grounds program. This program is designed to transform Canadian school grounds into natural learning environments so that students can have a healthy place to play, learn and develop a genuine respect for nature. We also support Special Olympics Canada, which helps athletes reach their full potential through participation in events from a local to a national level.
